The Wisconsin satellite of the Institute for Advanced Thinking.

The utmost gratitude to Bern Porter for the time he spent in residence in 1989 & 1990. The neighbors are still talking about it & found art will never be the same.

This book edited & designed by mIEKAL aND in September 2004 after discovering these found graphics in the bottom of a manuscript box. We also repeatedly received postcards asking when we would publish "Mothering Time" & "Abraham Lincoln Gillespie", neither of which we had ever seen. If anyone knows of these materials please send a copy to us at the address below & an additional copy to the KGB.

Bern Porter, mIEKAL aND, Elizabeth Was, Liaizon Wakest & Malok standing at the front door of the Church of Anarchy, Madison, Wisconsin, May 1989. Bern generated 3 found books, 2 audio cassettes & a video in the 6 days he was in residence. Liz and I spent our time supplying him with bookmaking materials. Zon made a video with Bern, painting vispo all over him. Malok said "I'll shut up now" ad nauseum. When he wasn't busy picking thru garbage cans looking for anything that spoke to him, Bern was fixated on telling us how to cook, claiming that the only thing one needed to know in the kitchen is how to use a can-opener.
